LEADERSHIP EXPERIENCE

The Cookie Connect

Hoboken, NJ

Shift Manager

Oct. 2021 - May 2024

- Supervised night shift operations, ensuring timely order fulfillment while maintaining high standards of customer satisfaction.
- Adapted to rapidly changing situations and solved problems quickly to maintain smooth store operations during busy periods.
- Managed end-of-shift responsibilities, including store closing procedures and accurate entry of data into the nightly management log.
- Fostered teamwork and clear communication among coworkers to optimize workflow during peak hours.

PROJECTS

Consuming Darkness (JavaScript, HTML, CSS)

- Developed an interactive text-based adventure game using JavaScript to parse user commands for game progression.
- Created custom HTML and CSS layouts, illustrations, and game assets.
- Implemented gameplay mechanics and UI design to improve user engagement.

Personal Portfolio (JavaScript, HTML, CSS)

- Designed and developed a retro-themed, responsive portfolio website to showcase personal projects.
- Used JavaScript to dynamically load project data from JSON files for modular content management.
- Implemented media queries, including light/dark mode, based on user preferences, while following a mobile-first approach for optimal accessibility.

Happy Trails (Figma)

- Designed a mobile app aimed at simplifying route planning for hikers through user-centered design.
- Conducted in-depth user research, including personas, journey maps, and pain point analysis, to guide design decisions.
- Created paper/electronic wireframes, prototypes, and high-fidelity mockups with accessibility as a key focus.
